*The items bearing company logos or names illustrated in this catalog do not indicate or imply in any way that we have supplied the respective gift to the owner of the name or trademark, but are only representatives of the effect obtained by using the advertisement, no design are for sale.

No logo will be reproduced without the owner prior approval.

About us:

A Word from Chairwoman CHOW HSU FEN 周淑芬:

OUR HISTORY

One of the few remaining historic Taiwanese manufacturer of promotional product. We started with metal enamel in 1991, then added soft pvc cloisonne in 1996 and aluminium anodized in 1999. While our Head Office remain in Taiwan, we opened our first factory in China in 1999 in Guangdong province, Zhaoqing city, 80km North West and 2H drive from Guangzhou. We opened a second factory in the same area in 2014 to create a top state of the art doming and logo process setup. You are welcome to visit our factory, the Canton Fair is a good opportunity.

OUR VISION

We don't let our problem become our customer's problem. We emphasize **Quality & Competitive Service** to make sure our client invest their time & credibility with confidence. During our 25+ years' experience in managing and controlling production in China, we invested in training, logistic & quality setup to achieve that goal. We don't take importer for "buyers" but for "sellers" & the best sales team we could ever get. In return, we aim at being your best merchandising department so you can focus on selling instead of wasting resources and risking your reliability.
